Find Your Winning Edge: Gold-Standard Tools for JDE

JD Edwards Workshops

Terillium's JD Edwards workshops are tailored to meet your organization's needs. Whether more flexibility is needed or the ability to be remote, we can personalize the workshop to what works best for your organization.

JD Edwards Roadmap Workshop

Build your JDE roadmap and move forward with new tools that make sense for your organization.

JDE UX One Training Workshop

JD Edwards UX One gives you choice and control by providing you options to personalize and configure your user experience. Formulate a successful UX One implementation strategy that makes sense for your organization.

JDE Orchestrator Training Workshop

Gain a deep understanding of the Orchestrator Studio tool and its newest capabilities with hands-on training to boost efficiency and streamline your business operations.

Path to 64-bit Planning Workshop

Oracle has announced that they are moving JDE entirely to a 64-bit ERP. Start planning your move with our 64-bit planning workshop.

JD Edwards World Workshop

91% of companies run JD Edwards EnterpriseOne, leaving 9% running on World.* If you're ready to migrate to EnterpriseOne, we can help.
